

1. If the third day of a month falls on Friday, then what day will be on the fourth day after twenty first of the month?

**(Calendar) NIMCET 2013**

- (a) Monday (c) Saturday  
(b) Tuesday (d) Thursday

2. If Tuesday falls on the fourth of a month, then which day will fall three days after 24<sup>th</sup> of the same month? **(Calendar) NIMCET-2015**

- (a) Monday (b) Tuesday  
(c) Thursday (d) Friday

3. Raman was born on March 5, 1970. Lakshman was born 25 days before Raman. The year when they took birth, the Republic Day fell on Monday. What is the day of birth of Lakshman.

**(Calendar) NIMCET-2016**

- (a) Sunday (b) Monday  
(c) Wednesday (d) Saturday

4. The day after the day after tomorrow is four days after Monday. What day is it today? **(Calendar) NIMCET-2016**

- (a) Monday (b) Tuesday  
(c) Wednesday (d) Thursday

5. If the day after the day after tomorrow is three days before Friday, then today is

**(Calendar) NIMCET-2017**

- (a) Tuesday (b) Thursday  
(c) Saturday (d) Monday

6. If it is Saturday on January 1, 2000, then January 1, 2001 would have been **(Calendar) NIMCET-2021**

- (a) Monday (b) Sunday  
(c) Tuesday (d) Friday

7. Today is Wednesday. What would be the day after 61 days? **(Calendar) NIMCET-2022**

- (a) Sunday (b) Monday  
(c) Tuesday (d) Saturday

8. In which year was Arjun born? Arjun at present is 25 years younger to his mother. Arjun's brother, who was born in 1964, is 35 years younger to his mother. **(Calendar) NIMCET-2024**

- (a) 1974 (b) 1964  
(c) 1944 (d) 1954

9. If 30<sup>th</sup> September, 1991 was a Wednesday, then what was the day on 14<sup>th</sup> March 1992? **(Calendar) NIMCET-2024**

- (a) Wednesday (b) Monday  
(c) Saturday (d) Sunday

## ANSWER

|    |   |    |   |    |   |    |   |    |   |
|----|---|----|---|----|---|----|---|----|---|
| 1. | c | 2. | c | 3. | a | 4. | b | 5. | c |
| 6. | a | 7. | b | 8. | d | 9. | b |    |   |

## SOLUTION

1. (c)  $\therefore$  Fourth date after 21st =  $21 + 4 = 25$   
Then,

|   |    |    |
|---|----|----|
| 3 | 10 | 17 |
| ↑ | ↑  | ↑  |

1st Friday 2nd Friday 3rd Friday 4th Friday

$\therefore$  Required day (25th date) = Friday + 1 = Saturday

2. (c) The 4th day is Tuesday, then 11th, 12th and 25th also Tuesdays.

Then, 3 days after 24th is 27th, which is Thursday.

3. (a) Raman's DOB = 5th March, 1970  
 $\therefore$  Lakshman's DOB = 8th Feb 1970  
Republic Day, i.e. 26 Jan = Monday  
 $\therefore$  8th Feb = Sunday.

4. (b) 4 days after Monday is Friday  
So, today is Tuesday.

5. (c) Three day before Friday is Tuesday.  
 $\therefore$  The day after the day after tomorrow = Tuesday  
 $\therefore$  The day after the day tomorrow = Monday  
 $\therefore$  The day on tomorrow = Sunday  
 $\therefore$  Today = Saturday

6. (a)  $\therefore$  Year 2000 is a leap year.  
So, if it is Saturday on January 1, 2000, then January 1, 2021 would have been (Saturday + 2 = Monday).

7. (b) Given, today is Wednesday. Everyday repeats after 7 days, hence Wednesday will repeat after every 7 days. Now,  $61 \text{ days} \div 7 = 8 \text{ weeks } 5 \text{ odd days}$ . So, the 5<sup>th</sup> day after Wednesday is Monday. Hence, Monday is the correct answer.

8. (d)  
Arjun is 25 years younger to his mother  
His brother is 35 years younger to his mother  
His brother Birth year 1964  
Arjun's Birth year is  $1964 - 10 = 1954$

9. (b)
