

1. Count the number of Pentagons: (Counting of figure) NIMCET-2007

- (a)12 (b)13 (c)16 (d)none

2. Number of triangles and squares in the following figures:

(Counting Figure) NIMCET-2007

- (a)32 triangles, 10 squares  
(b)32 triangles, 8 squares  
(c)28 triangles, 10 squares  
(d)28 triangles, 8 squares

3. Identify the number of triangles in the figure given below:

(Figure Counting) NIMCET-2009

- (a) 44 (b) 48 (c) 36 (d) 32

4. Choose the best answer figure to substitute element 4 in the problem figures so that element 3 is related to element 4 in the same way as element 1 is related to element 2. (Figure) NIMCET-2011

Problem Figures

Answer Figures

5. The numbers is squares in the following  $4 \times 6$  grid is

(Figure Counting) NIMCET-2017

- (a)36 (b)44 (c)51 (d)54

6. Find the number of triangles in the given picture.

(Counting Figure) NIMCET-2018

- (a)10 (b)12 (c)14 (d)16

7. In the following figure. Find the total number of squares.

(Figure Counting) NIMCET-2022

- (a)24 (b)20 (c)36 (d)18

ANSWER

|   |   |   |   |   |   |   |   |   |   |
|---|---|---|---|---|---|---|---|---|---|
| 1 | a | 2 | a | 3 | c | 4 | b | 5 | c |
| 6 | c | 7 | a |   |   |   |   |   |   |

SOLUTION

1. (a)  
2. (a) 32 Triangle 10 square.  
3. (c) Number of triangles  $16+8+4+4+4=36$   
4. (b) Answer figure (b) is correct substitute of the problem figure (4).

5. (c)

Total number of squares

= AEJO, EFKL, FGLK, GHML, HINM, IBPN, JRQO, JKSR, KLTS, LMUT, MNVU, NPWV, QRYX, RSZY, STAZ, TUB' A', UVCB', VWD'C', DEYX, YZFE', ZA'GF', AB'H'G', B'C'H', CD'CI', AFSQ, EGTR, FHUS, GIVT, HBWU, OKZX, JLAY, KMBZ, LNC'A', MPDB', QSFD, RTGE', SUHF', TVI'G', UWCH', AGAX, EHBY, FICZ, GBD'A', OLGD, JMHE', KNIF', LPCG', AHHD, EII' ', FBCF'.

6. (c)

Total number of triangles = 14

( $\Delta ABH, \Delta HIB, \Delta HGI, \Delta FJD, \Delta CJD, \Delta FDE, \Delta HFI, \Delta DIB, \Delta HFD, \Delta DBH, \Delta AHD, \Delta CFE, \Delta CFD$  and  $\Delta BHG$ )

7. (a) Given

Hence, total number of squares = 24 (  $\square ABKL, \square BCML, \square BQLP, \square KPLW, \square LWIV, \square LQMV, \square QCMR, \square MRNU, \square MVUH, \square RDSN, \square NSOT, \square NTUG, \square BKMI, \square CLNH, \square DMOG, \square ACJH, \square BDGI$  and  $\square CEFH$  )
