

Directions for question 1 : Choose the ordered pair of state- ments (P to S) where the first statement implies the second, and two statements are logically consistent with the main statement.

1. Each time Sachin is the captain India loses

(Statement and Conclusion) NIMCET-2009

- (P)Sachin is the captain (Q)India did not win
(R)Sachin is not the captain (S)India won
(a)PS (b)SR (c)SP (d)RP

2. While Hameed had his back turned, a dog ran into his butcher shop, snatched a piece of meat off the counter and ran out. Hameed was mad when he realized what had happened. He asked other shopkeepers, who had seen the dog to describe it. The shopkeepers, really did not what to help Hameed. So, of them made a statement which contined one truth and one lie.

(Statement Conclusion) NIMCET-2009

Shopkeeper 1 said: "The dog had black hair and a long tail".

Shopkeeper 2 said: "The dog had a short tail and wore a collar".

Shopkeeper 3 said: "The dog had white hair and no collar".

Based on the above statements which of the following could be correct description.

The dog had

- (a) white hair, short tail and no collar
(b) white hair, long tail and a collar
(c) black hair, long tail, and a collar
(d) black hair, long tail and no collar

Directions Questions 3 and 4 : In the following questions, select one alternative in which the third statement is implied by the first two statements. (Statement Conclusion) NIMCET-2010(a) All elephants are wild. All lions are wild. So all lions are

3. (a) All elephants are wild. All lions are wild. So all lions are elephants.
(b) All mangoes are red. Some apples are mangoes. So all apples are red
(c) All roads are boxes. All foxes are roads. So all boxes are foxes.
(d) All X Y Z can run. All ABC are XYZ. So all ABC can run.

4. (a) All dogs are mad. All sick persons are mad. So all sick persons are dogs
(b) All oranges are black. All figs are oranges. So all figs are black.
(c) All windows are dogs. Some doors are dogs. So all windows are doors.
(d) No man can fly. No kite can fly. So all men are kites.

5. Assume that the following three statements are true.

- (A)All freshmen are human
(B)All students are human
(C)Some students think

Given the following four statements :

- (I)All freshmen are students
(II)Some humans think
(III)No freshmen think
(IV)Some humans who think are not students

Those which are logical consequences of I, II and III are

(Statement Conclusion) NIMCET-2011

- (a)2 (b)4 (c)2, 3 (d)1, 2

6. Given that **(Statement Conclusion) NIMCET 2013**

- i. Some apples are blackberries.
ii. Some doughnuts are apples.

- iii. No coconut is a doughnut.
iv. All blackberries are coconuts.

Which of the following statements is false?

- (a) Some blackberries are doughnut
(b) Some coconut are apples
(c) All coconuts are not apples
(d) All doughnuts are not coconuts

7. **Fact 1 :** Most stuffed toys are stuffed with beans.

Fact 2 : There are stuffed bears and stuffed tigers.

Fact 3 : Some chair are stuffed with beans.

If the above statement are fact. Which of the following statements, must also be fact?

1. Only children's chairs are stuffed with beans.
2. All stuffed tigers are stuffed with beans.
3. Stuffed monkeys are not stuffed with beans.

(a) 1 is fact **(Statement Conclusion) NIMCET-2016**

(b) Only 2 is fact

(c) Both 2 and 3 are facts

(d) None of the statements 1, 2, 3 are true

8. Decide which of the assumptions is implicit in the statement and choose your answer accordingly.

Statement:

Buy pure and natural honey of company

X."— An advertisement in a newspaper.

Assumptions:

I. Artificial honey can be prepared.

II. People do not mind paying more for pure and natural honey.

III. No other company supplies pure honey.

(Statement & conclusion) NIMCET-2018

- (a)Only I is implicit (b)I and II are implicit
(c)I and III are implicit (d)All are implicit

9. Choose the conclusion which logically follows from the given statement(s)

Statement :

All scientist working in America are talented. Some Indian scientists are working in America.

Conclusions:

1. None of Indian scientist is talented.
2. Some talented Indian scientists have migrated to America.
3. All talented scientists are Indians.
4. Some indian scientists are talented
The conclusion(s)correctly drawn is/are
(a)1 only (b)2 only
(c)2 and 3 (d)2 and 4

(Statement & Conclusion) NIMCET-2018

10. It has been reported in recent years that a very large number of seats in the engineering colleges in the country remain vacant at the end of the admission session.

Which of the following may be the probable cause of the above effect? **(Statement Conclusion) NIMCET-2018**

- (a) There has been a considerable decrease in hiring of engineering graduates due to economic slowdown in the recent years
(b) Students have always preferred to complete graduation in three years time instead of four years for engineering
(c) The government has recently decided to provide post qualification professional training to all engineering graduates at its own cost

- (d) None of the above
11. Decide which of the given conclusions logically follow from the given statement(s).

Statements Some codes are secrets.

All secrets are puzzles.

(Statement and Conclusion) NIMCET-2018

Conclusions:

I. All secrets being codes is a possibility.

II. Atleast some puzzles are codes.

(a) Only conclusion I is true

(b) Only conclusion II is true

(c) Either conclusion I or II is true

(d) Both conclusions I and II are true

12. **Statement I :** Out of total of 200 readers, 100 read Indian Express, 120 read Times of India and 50 read Hindu.

Statement II : Out of total of 200 readers, 100 read Indian Express, 120 reads Times of India and 50 read neither.

How many people (from the group surveyed) read both Indian Express and Times of India?

(a) The Question can be answered with the help of statement II, alone.

(b) Both, statement I and statement II are needed to answer the question.

(c) The question can be answered with the help of statement I alone.

(d) The question cannot be answered even with help of both the statements.

(Statement and Conclusion) NIMCET-2019

Directions (Q. Nos. 13 and 14): (Statement and Conclusion) NIMCET-2019

Each of the questions given below consists of a statement and/or a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statement(s) is/are sufficient to answer the given question. Read both statements and

Give the answer **(U)** if the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.

Give the answer **(V)** if the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.

Give the answer **(W)** if the data either in Statement I or in Statement II alone are sufficient to the answer of the question.

Give the answer **(X)** if the data in both statements I and II together are not sufficient to answer the question.

Give the answer **(Y)** if the data in both statements I and II together are necessary to answer the question.

13. How much time will leak take to empty the full cistern?

I. The cistern is normally filled in 9 h.

II. It takes one hour more than the usual time to fill the cistern because of a leak in the bottom.

(a)V (b)U (c)X (d)Y

14. How will long it take to empty the tank if both the inlet pipe P1 and the outlet pipe P2 are opened simultaneously?

I. P1 can fill the tank in 16 min.

II. P2 can empty the full tank in 8 min.

(a)X (b)U (c)Y (d)V

15. In the following questions, the symbols \$, #, @, % and * illustrate the following meanings. **(Statement Conclusion) NIMCET-2020**

>P\$Q – P is not smaller than Q

> P#Q –P is neither greater than nor equal to Q.

>P@Q –P is neither smaller than nor equal to Q.

>P%Q- P is not greater than Q

>P*Q –P is neither greater than nor smaller than Q.

Statements: K#L, L%M, M*N, N#O

Conclusions:

I. K#M II. K*M III. L%O

(a)I only (b)Either I or II only

(c)III only (d)All I, II and III

16. If there are no dancers that aren't slim no singers that aren't dancers, then which statements are always true? **(Statement Conclusion) NIMCET-2020**

Choose the correct answer.

(a) There is not one slim person that is not a dancer.

(b) All singers are slim.

(c) Anybody slim is also a singer.

(d) None of the above

Directions (Q. Nos. 17-19): In each question below are given two statements followed by two conclusions numbered I and II. You have to take the given two statements to be true even if they seem to be at variance from commonly known facts. Read the conclusions and then decide which of the following given conclusions logically follows from the two given statements, disregarding commonly known facts.

(Statement Conclusion) NIMCET-2022

17. **Statements** No women teacher play. Some women teachers are athletes.

Conclusions

I. Male athletes can play.

II. Some athletes can play.

(a) Neither I nor II follows

(b) Only Conclusion I follows

(c) Either I or II follows

(d) Only Conclusion II follows

18. **Statements** All mangoes are golden in colour. No golden coloured things are cheap.

Conclusions

I. All mangoes are cheap.

II. Golden-coloured mangoes are not cheap.

(a) Neither I nor II follows

(b) Only Conclusion II follows

(c) Only Conclusion I follows

(d) Either I or II follows

19. **Statements** All young scientists are open-minded. No open-minded. No open-minded men are superstitious.

Conclusions

I. No scientist is superstitious

II No young people are superstitious.

(a) Either I or II follows

(b) Neither I nor II follows

(c) Only Conclusion II follows

(d) Only Conclusion I follows

20. **Statement** Many shops in the local market have extended their shops and occupied most part of the footpath in front of their shops.

Cause of Action (Statement Conclusion) NIMCET-2022

I. The civic authority should immediately activate a task force to clear all the footpaths encroached by the shop owners.

II. The civic authority should charge hefty penalty to the shop owners for occupying the footpath.

III. The civic authority should setup a monitoring system so that encroachments do not recur in future.

(Statement Conclusion) NIMCET-2022

(a)None follows

(b)II and III follow

(c)I and II follow

(d)All I, II and III follow

21. **Statement** There is a significant increase in the number of patients affected by some disease in a city.

(Statement Conclusion) NIMCET-2022

Cause of Action

- I Municipal corporation of the city should take immediate action.
II This problem should be raised in the UNESCO.
III Hospitals in the city should be equipped properly for the treatment of the patients.

- (a) Only III follows (b) All follow
(c) I and II follow (d) I and III follow

Direction (Q. No. 22) : Read the statements and conclusions carefully and decide which of the conclusion follows from the statements.

22. Statements (Statement Conclusion) NIMCET-2023

- No table is chair
Not a single chair is stand.
Every stand is statue.

Conclusions

- I. Some statue which are stand are table as well
II. Some statue are not chair.

- (a) If neither Conclusion I nor II follow
(b) If only Conclusion I follows
(c) Only Conclusion II follows (d) None follows

23. Read the statements and conclusions carefully and decide which of the conclusions follow from the statements.

(Statements and Conclusion) NIMCET-2023

- Most teachers are boys.
Some boys are students.

Conclusions

- I. Some students are boys.
II. Some teachers are students.

- (a) Neither I nor II follow (b) Either I or II follow
(c) Only II follows (d) Only I follows

24. What is the value of $x^2 + y^2 = ?$

Statement I : $xy = 5$

Statement II: $x + y = 10$ (Statement Conclusion) NIMCET-2024

- A. Choose this option if the question can be answered by using one of the statement alone, but cannot be answered using the other statement.
B. Choose this option if the question can be answered by using both the statement together, but cannot be answered using either statement alone.
C. Choose this option if the question can be answered by using either statement alone.
D. Choose this option if the question cannot be answered even by using both the statement together.

- (a) B (b) C
(c) D (d) A

25. This question contains six statement followed by four sets of combinations of three. Choose the set in which the combinations are most logically related.

(Statement Conclusion) NIMCET-2024

- A. All falcons fly high.
B. All falcons are blind.
C. All falcons are birds.
D. All birds are yellow.
E. All birds are thirsty.
F. All falcons are yellow.

- (a) DEF (b) CDF
(c) ABC (d) BCA

SOLUTION

1	b	2	b	3	d	4	b	5	a
6	a	7	d	8	a	9	d	10	a
11	d	12	a	13	d	14	c	15	a
16	d	17	a	18	b	19	b	20	d
21	d	22	c	23	d	24	b	25	b

SOLUTION

1. (b) India won means Sachin is not the captain.
2. (b) White hair, long tail and a collar will give one truth and one lie in each of the three statements.

3. (d)

(a)

All lions are elephants not confirm.

(b)

All apples are red not confirm.

(c)

All Boxes are foxes not confirm.

(d)

All ABC can run True. Ans. Option (d)

4. (b)

(a)

All side persons are dogs.
Not confirm.

All Figs are black
True.

All windows are door.
Not confirm.

All men are kites.
Not confirm.

5. (a) According to the statements, Venn-diagram is

Conclusions

- I. x
II. ✓
III. x
IV. x

6. (a) According to the statements,

Hence, some blackberries are doughnuts, is definitely, false.

7. (d) None of the given statements match the facts.

8. (a) Artificial honey can be prepared as the word natural is mentioned in the advertisement. No comparison regarding the price of natural honey is given.

Also, no information regarding other companies is given.
Hence, only assumption I is implicit.

9. (d) From the given statement it is clear the some talented Indian Scientist have migrated to America and also some Indian Scientists are talented.

Hence, conclusion (2) and (4) are true.

10. (a) As there is a considerable decrease in hiring of engineering graduates, a large number of engineering seats remains vacant.

11. (d)

Conclusion

I. (✓)

II. (✓)

Hence, both conclusions I and II are true.

12. (a) Let A be the number of people who read Indian express and B be the number of people who reads Time of India then to find

$$n(A \cap B)$$

$$\text{In statement-1 } n(U) = 200, n(A) = 100, n(B) = 120$$

$$n(\text{Hindu}) = 50$$

It cannot be determined.

In statement-II

$$n(U) = 200, n(A) = 100, n(B) = 120$$

$$n(A \cup B) = 50, n(U) - n(A \cup B) = 50$$

$$n(A) + n(B) - n(A \cap B) = 150$$

$$100 + 120 - n(A \cap B) = 150$$

$$n(A \cap B) = 70$$

Hence, question can be answered with the help of statement II alone.

13. (d)

(i) The cistern fill the tank in 9 hours.

(ii) It takes one hour more than the usual time to till the cistern because of a leak in the bottom.

So, far finding the leakage to empty the full cistern, we have required both statements.

14. (c)

(i) P_1 fill the tank in 16 minutes

$$\therefore P_1 \text{ fill in the tank in 1 minute} = \frac{1}{16}$$

(ii) P_2 empty the full tank in 8 minutes.

$$\therefore P_2 \text{ empty the tank in 1 min} = -\frac{1}{8}$$

$$\therefore P_1 \text{ and } P_2 \text{ empty the tank in 1 min} = \frac{1}{8} - \frac{1}{16} = \frac{1}{16}$$

Hence, both statements are required for finding the answer.

15. (a) As per the given data. $K \# L$ means K is neither greater than nor equal to L. It means K is smaller than 'L'. $L \% M$ means L is not greater than M, it means L is smaller or equal to M. $M * N$ means M is neither greater than nor smaller than N, it means M is equal to N. $N \# O$ means N is neither greater than nor equal to O, it means N is smaller than O.

$$K < L \leq M = N < O$$

By this, $K \# M$ is correct.

$K * M$ is incorrect.

$L \% O$ is incorrect.

$\therefore K \# M$ means 1 only correct.

$\therefore$ The correct answer is option (a).

16. (d) According to the given statements,

If there are n dancers that aren't slim

All dancer are slim

No singers that aren't dancers

All singers are dancers.

The venn diagram of above two statement are

Statement I → False

Statement II → True

Statement III → False

Statement IV → False

∴ The correct statement is "All singers are slim".

∴ The correct answer is option (d).

$$x^2 + y^2$$

$$xy = 5$$

$$x + y = 10$$

$$x^2 + y^2 + 2xy = 100$$

25. (b)

17. (a) According to the given statements,

I. (x)

II. (✓)

Hence, neither Conclusion I nor II follows.

18. (b) According to the given statements,

I. (x)

II. (✓)

Hence, only Conclusion II follows.

19. (b) According to the given statements,

I. (x)

II. (x)

Hence, neither Conclusion I nor II follows.

20. (d) According to the given statement, all of three cause actions are follows.

21. (d) According to the given statements, only I and III follows.

22. (c) According to the given statements,

Conclusions I. (x)

II. (✓)

Hence, only Conclusion II follows.

23. (d) According to the following statements,

Conclusions

I. (✓)

II. (x)

Hence, only conclusion I follows.

24. (b)
